

Docket No.: 2001 P 13667 US
App. No.: 09/922,062

REMARKS

Claims 1-3 and 5-28 are now pending in the Application. Claims 1, 5, 13 and 17 have been amended. Claims 25-28 have been added. Claim 4 has been canceled without prejudice, thus the requisite fee has been provided for the net gain of three claims.

Applicant respectfully submits independent claims 1, 5, 13 and 17 include novel and nonobvious elements. Anticipation requires the disclosure in a single prior art reference of each element of the claim under consideration. *W.L. Gore & Assocs. v. Garlock*, 721 F.2d 1540, 220 USPQ 303 (Fed. Cir. 1983), *cert. denied*, 469 U.S. 851 (1984). Further, "anticipation requires the presence in a single prior art reference disclosure of each and every element of the claimed invention, arranged as in the claim." *Lindemann Maschinenfabrik GmbH v. American Holst & Derrick Co.*, 730 F.2d 1452, 221 USPQ 481, 485 (Fed. Cir. 1984) (citing *Connell v. Sears, Roebuck & Co.*, 722 F.2d 1542, 220 USPQ 193 (Fed. Cir. 1983). Emphasis added. Additionally, to establish *prima facie* obviousness of a claimed invention, all the claim limitations must be taught or suggested by the prior art. *In re Ryoka*, 180 U.S.P.Q. 580 (C.C.P.A. 1974). *See also In re Wilson*, 165 U.S.P.Q. 494 (C.C.P.A. 1970).

Applicant respectfully submits claims 1, 5, 13 and 17 include elements which have not been disclosed by the art cited by the Patent Office. For example, claims 1, 5, 13 and 17 generally recite:

a message store for storing multimedia messages;

summarization means for automatically summarizing the stored message, wherein said summarization means reduces messages to a list of keywords from a plurality of lists of keywords, each keyword of each list being selectable by a user, said list of keywords applied to the stored message being based upon a sender of a message; and

organization means for organizing content of the stored message into a template, said template including information fields selected by a user and a number of characters for each field selected by said user, wherein said stored message is available for access in accordance with said template for said user.

Docket No.: 2001 P 13667 US
App. No.: 09/922,062

These elements have not been disclosed, taught or suggested by the art cited by the Patent Office, individually or in combination. Thus, claims 1-3 and 5-28 should be allowed.

Conclusion

Applicants respectfully submit that all claims are allowable, and it is respectfully requested that the entire application now be passed to formal allowance.

Respectfully Submitted,

Dated: 22 Nov. 05
